

From: "Department of Paediatrics and Adolescent Medicine" <chiangak@hku.hk>  
Subject: Opportunity for MPhil or PhD research project in the biology of Epstein-Barr virus-related diseases

Message from Department of Paediatrics and Adolescent Medicine

Dear students,

I am looking for motivated students who are interested to pursue a MPhil or PhD degree in medical sciences at HKU to participate in research into the biology of Epstein-Barr virus (EBV)-related diseases including infectious complications, lymphoproliferative diseases and epithelial malignancies for the current round of application (deadline: 31-Dec-2012). You should have obtained a bachelor degree of first class or second class upper division 1 or either have completed or in the process of completing a MPhil study in biological sciences.

Please send your current CV and academic transcript via e-mail (chiangak@hku.hk) for my consideration.

Regards,

Alan KS Chiang
